

Kick-Start
Your Future

Hello, with more and more people and things connected to the internet, we'll need more digital skills, new innovations and technology to help keep it all ticking along. And that's where you come in. You don't have to be technical to be a part of the team. One thing is for sure, you'll be part of an amazing team – we placed #2 in the UK's Great Place to Work survey 2020 and 2021. And we placed #1 in the World's Best Workplaces for the last two years!

No matter what you're planning for your future, there's a route into Cisco for everyone. Keep reading to discover which programme could be best for you.

Pathways Work Experience

Curious about a career in technology? Looking for work experience that's fun, exciting and where you can get stuck in? Look no further than our Pathways work experience programmes.

You don't have to be tech-savvy to take part; we're open to everyone. We've got a mix of live sessions along with modules you can do at your own pace. You can select from technical and non-technical modules and hear from people talking about the variety of roles in the technology industry. Hear from people who do these jobs every day to see first-hand what it's like to work for Cisco and inspire your choices for a career in IT.

stated that Cisco work experience made them aware of different career opportunities in the IT industry and helped them feel better prepared for the world of work

15-17 Year Olds

Open to students in Years 11 & 12, our work experience programme runs at our offices in Bedfont Lakes (Feltham) and Virtually.

You can select from technical and non-technical modules and hear from people talking about the variety of roles in the technology industry. There'll be presentations, mock interviews, practical workshops and tours. Plus, you'll get to learn loads through the targeted activities that link to your chosen workstream.

Did we mention that you get to work in groups to pitch your very own tech-inspired business idea to our panel of judges? It's time to get your innovation caps on.

“My work experience at Cisco has provided me with a fascinating insight of the IT industry and how much it can influence our daily lives. As a consequence, I have decided to study computer science at A level. It was a truly unforgettable opportunity.”

16-18 Year Olds (Young women and those who identify as female or non-binary)

Believe it or not, everyone who works in IT isn't an engineer. Join us for four days of discovery as we unveil the technology industry and the diverse range of careers available. Hosted at Cisco offices in Bedfont Lakes (Feltham), Manchester and virtually. You'll get a taste of real work life to give your CV that extra boost. Spend two days shadowing people and contribute to real work scenarios. You could be working alongside Sales, IT, Marketing or any other business area. Drive your own learning whilst developing your presentation and communication skills, problem solving and team working.

“The programme has influenced my career aspirations and shown me that I enjoy sales so much that I plan to apply for the Graduate programme!”

“My favourite part of the week was shadowing colleagues, getting a real feel of what it's like to work for Cisco.”

Apprenticeships

We know university isn't for everyone, and securing a graduate role can be pretty tricky without decent work experience. Luckily for you, our Degree Apprenticeship is a great way to kick-start your career.

Over a four year programme you'll explore a huge variety of roles within Cisco. Giving you the knowledge and on-the-job experience to specialise in working directly with technology or supporting the people that make it happen. You'll define your career path, complete a major project and deliver real results to the business. You will study for a BSc in Digital and Technology Solutions or a BSc in Professional Management; you'll earn the same qualifications as a university graduate.

To top it all off you'll have a strong base of support, thanks to a brilliant group of current apprentices, mentors, managers and more, all ready to guide and advise you.

Internships

Are you in your penultimate year of higher education and looking for an opportunity to get a head-start on a brilliant career? Then you've flipped to the right page. We're looking for ambitious people to apply for our internship programmes, taking on varied roles from sales to technical and beyond.

Our selection of internships are specifically designed for university students and range from nine week summer placements to 12 month year-in-industry opportunities. No matter how your course is structured, there's an internship that's right for you.

Field Sales Specialist Intern & Technical Sales Engineer. The nine week long Worldwide Sales and Technical Sales internship programmes are specifically designed for university students and offer the opportunity to learn and gain sales and consulting experience within Cisco.

Supply Chain

A classic summer internship! As a software engineer intern, you will work on exciting live projects, using a wide range of technologies. Commencing in June or July for 10-12 weeks.

IT (various)

We offer one year IT Internships for all of the IT graduate roles outlined in the Grad Programme section - ideal if you're planning to take a year out from study for a placement.

Marketing

Spend your Summer on our Global Marketing Programme! Over 3 months you'll work on live campaigns that drive impact for our customers, culminating in a readout, live on Cisco TV to senior marketing execs!

Graduate Programme

What's next? Whether you're nearing the end of university life or already possess a BA or MA, a graduate programme could be the perfect next step to a life-changing career.

With six to 12 month roles in areas across the business from engineering and sales to supply chain and marketing, Cisco is where people with a passion for tech, problem solving and teamwork can hone their skills and find their calling.

We're building the best team in the business to change the way the world works, lives, plays and learns by connecting the unconnected.

Roles include:

- Cisco Sales Associate Programme
- Associate Sales Representative
- Associate Sales Engineer
- Graduate Network Consulting Engineer
- IT Analysts
- IT Network Engineer Roles
- Engineering – Software Engineer
