Installeer CSM On-Prem op VMWARE ESXi.
Eerste configuratie van CSM On-Prem .
Integreren met CSM On-Prem met Smart Account
OPTIE 1: Registreer uw CSM On-Prem via internetverbinding.
OPTIE 2: Registreer uw CSM On-Prem zonder een internetverbinding.
Integreer CSM On-Prem met ISE.
Certificaten maken van Windows CA.
DNS-records toevoegen op Windows-server.
Problemen oplossen
Host/IP-adres is niet bereikbaar.(Fout op ISE)
SSO-service: kan Cisco niet bereiken. (Fout op CSM on-Prem)
De algemene naam in de CSR is geen DNS-oplosbare hostnaam of IP-adres, probeer het nogmaals.(Fout op CSSM On-Prem)

Inleiding

Dit document beschrijft de integratie van CSM On-Prem met Cisco Identity Service Engine (ISE) en Cisco Smart Account, waardoor een naadloze installatie mogelijk is.

Voorwaarden

Vereisten

ISE-lijnkaart 3.x

Cisco Smart Software Manager (CSM) versie 8 release 202304 +

Gebruikte componenten

- Identity Service Engine 3.2 patch 2
- SSM op prem 8.20234

- Windows Active Directory 2016 (DNS- en certificaatautoriteit services)
- VMWare ESXi versie 7

De informatie in dit document is gebaseerd op de apparaten in een specifieke laboratoriumomgeving. Alle apparaten die in dit document worden beschreven, hadden een opgeschoonde (standaard)configuratie. Als uw netwerk live is, moet u zorgen dat u de potentiële impact van elke opdracht begrijpt.

Configureren

Netwerkdiagram

Installeer CSM On-Prem op VMWARE ESXi.

- 1. Download Cisco IOS®. U kunt de volgende link gebruiken: https://software.cisco.com/download/home/286285506/type/286326948/release/8-202304
- 2. Upload de ISO in VMWARE ESXi.

Ga naar Storage > Datastore Browser.

vmware [,] ESXi [,]					root@1	0.4.23.59 👻	Help 👻 🔍	Search
"T Navigator	Iocalhost.localdomain - Storage

Welcome to Smart Software Manager On-Prem where you can locally manage Smart Licensing and perform local Account Management functions for your organization.

CSSM-inlogpagina

Gebruik de standaardreferenties:

Gebruikersnaam: admin

Wachtwoord: Cisco Admin!2345

- 6. Selecteer uw taal.
- 7. Maak een nieuw GUI wachtwoord.
- 8. Configureer de algemene naam van de host. (voorbeeld: hostname.yourdomain).

In dit geval is csm.testlab.local geconfigureerd als algemene hostnaam.

Welcome to Cisco Smart Software	Manager On-Prem
---------------------------------	-----------------

STEP 1	STEP 2	STEP 3	STEP 4
System Language Selection	Temporary Password Reset	Host Common Name	Review and Confirm
Products that support Str	ing SSL Cert Checking require	the SSM On-Prem's "Host Co	mmon Name" to match the "destination" URL address. For example:
Products using S	mart Transport must use both	the "license smart url" configur	ation and the "cssm.testlab.local" value in the URL string.
Legacy products	using Smart Call Home must	use both the "destination addre	ss http" configuration and the "cssm.testlab.local" value in the URL string.
If the above URLs do n value.	ot match expectations, refer	to the SSM On-Prem AdminV	Vorkspace -> Secruity Widget to change the Host Common Name to the correct
The option to configure a	Iternative names (SAN) is ava	ilable in Admin Console under	Security -> Certificates and can be configured after the initial setup.
* Host Common Name

Sync-bestand.

Upload tot slot het Synch Response File in de CSM op Premise.

Synchronisatie voltooid.

Integreer CSM On-Prem met ISE.

1. Open de CSM GUI en selecteer Admin Workspace.

Hoofdmenu CSM.

2. Navigeren naar Beveiliging > Certificaten > CSR genereren

Opmerking: het is belangrijk dat het hostname + domein op de gemeenschappelijke hostnaam is geconfigureerd, omdat ISE deze parameter gebruikt om een verbinding met het CSM tot stand te brengen. U kunt een IP-adres gebruiken in plaats van de hostnaam + domein, maar het is aan te raden om de hostnaam + domein te gebruiken

Opmerking: de volgende stappen beschrijven de procedure om het GUI-certificaat in de CSM te installeren. Als u de beheerverbinding met uw GUI CSM wilt beveiligen met behulp van een certificaat dat is ondertekend door uw persoonlijke certificeringsinstantie (CA), moet u de volgende stappen controleren. Controleer anders direct stap 9.

MVO-gegevens.

- 4. Onderteken de MVO: Voor meer informatie controleer de "<u>Maak certificaten van Windows</u> <u>CA</u>." op dit document.
- 5. Upload het root CA certificaat.

Browser Certificate

Klik op Doorgaan.

Please note that if you are uploading LDAP Server Certificate, it is mandatory to reboot your SSM On-Prem server for the certificate to take effect and thus allowing secure communication with the server.

Below are the commands for non-HA(standalone) deployments:

 Execute "reboot" command in Onprem-console ssh admin@<IP> onprem-console reboot

For HA deployments

 Execute reboot command on active node in onprem-console. After failover, ensure that DB replication has started. If you wish to restore the previous active node, execute another reboot, after verifying replication has started.

The active node is the node that is serving the virtual IP of the cluster.

×

6. Voer een beschrijving in, kies het basiscertificaat en klik op OK.

Upload Certificate

* Description:	CA root
* Certificate:	Seleccionar archivo Root CA.cer
OK Cancel	

Beschrijving root CA.

7. Upload de door de CA ondertekende CSR (CSSM Identity Certificate).

Registratie van vergunningen.

14. Voer de SSM On-Prem FQDN in op de SSM On-Prem server Host en klik op Registreer.

CSM- en ISE-instellingen.

Opmerking: het is belangrijk dat hostname + domein op de gemeenschappelijke hostnaam is geconfigureerd omdat ISE deze parameter gebruikt om een verbinding met CSSM tot stand te brengen. U kunt een IP-adres gebruiken in plaats van de hostnaam + domein, maar het is aan te raden de hostnaam + domein te gebruiken

15. En ten slotte is de registratie afgerond.

Registratie voltooid.

Certificaten maken van Windows CA.

Als u de beheerder van de certificeringsinstantie bent, moet u het volgende doen:

- 1. Open een webbrowser en navigeren naar http://localhost/certsrv/
- 2. Klik op Certificaat aanvragen.

$\leftrightarrow \rightarrow$ C (i) localhost/certsrv/	Aø	*	Φ	£∥	Ē	କ୍ତ	8	
Microsoft Active Directory Certificate Services tegonetwork-WIN-G9MM5UQGG80-CA							н	ome
